

In 2014 Safaz Signs & Electrical became a registered Asbestos contractor with the Department of Labour.

Since then we have completed many asbestos contracts and encountered non difficulties in performing our tasks. Works are done efficiently and there was never a negative report received from the AAIA agent due to us working hand in hand with the appointed agent.

Our crew consists of 15 dedicated, trained and inducted members. All employees have medical certificates which are renewed annually and they are correctly attired when performing their duties as per the asbestos regulations.

The following AAIA agents we worked closely with:

Safe Net Africa – Rudelle Van De Merwe

Industria Con – Pierre Wepener

OHMS – Stacey Harrison
